**Subject:** E-Enterprise Update for our meeting today  
**Attachments:** EE FY 18 Funding Needs V5.xlsx; EERC\_EE\_presentation.pptx

Hi Deb,

This is an update to E-Enterprise (EE) activities and information on the strategy for our region to move forward that Anthony pulled together for you as we thought it might be helpful to have a written strategy.

Sorry this is a bit last minute. Please let us know if you still want to have our in person update later today.

Thanks,

Melanie

**Region 8 strategy**

1. State and tribal EE Coordinators have been identified as follows:

Colorado	Andy Putnam	EELC, MB	<a href="mailto:andrew.putnam@state.co.us">andrew.putnam@state.co.us</a>	303-692-3579
Montana	Stephen Forrest	?	<a href="mailto:Stephen.Forrest@mt.gov">Stephen.Forrest@mt.gov</a>	406-444-4201
Utah	Brad Johnson	?	<a href="mailto:btjohnson@utah.gov">btjohnson@utah.gov</a>	801-536-4403
North Dakota	Gary Haberstroh	MB, IOT	<a href="mailto:ghaberst@nd.gov">ghaberst@nd.gov</a>	701-328-5206
South Dakota	Albert Spangler	?	<a href="mailto:albert.spangler@state.SD.us">albert.spangler@state.SD.us</a>	605-773-3351
Wyoming	Steve Girt	MB, IOT	<a href="mailto:steve.girt@wyo.gov">steve.girt@wyo.gov</a>	307-777-7163
Tribal (Blackfeet)	Gerald Wagner	EELC	<a href="mailto:gwagner@3rivers.net">gwagner@3rivers.net</a>	406-338-7421

2. Next Step: Anthony will schedule a kick off conference call or webinar with the EE coordinators where we will discuss (and hopefully agree) on a call frequency.

The goal is to share the EERC presentation and then share with them the current EE projects, minus the \$\$ at this point, and see if there is any interest on their part in participating in part or whole with these EE projects. Additionally, Anthony will see if they have ideas on the current EE projects in terms of enhancement or use.

3. Anthony will conduct regional in-reach to educate Region 8 staff and management about EE by participating in an ARAShip all hands meeting. Planning to pilot at OPRA All Hands meeting in early February with the goal of presenting to all ARAShips this spring.
4. Anthony will continue to participate in the national EERC, and EELC meetings and share information
5. Anthony will work with Melanie to provide an update on EE via the RLT SP site.
6. Anthony will continue to lead monthly status meetings with you.

The attached "EERC\_EE\_presentation file" is a presentation E-Enterprise Regional Coordinators (EERCs) are prepared to give to various stakeholders. Those stakeholders include the states and tribes EE coordinators and our staff and management in region 8.

The "EE FY 18 funding needs" attached file, \$\$ not to be shared with external folks, list current EE projects in the "hopper" at present.

The E-Enterprise Leadership Council (EELC) has given direction to focus on EE projects that are current and to finish most of them before moving on to any new EE projects.

We will work with our stakeholders to see how they can participate, use, or enhance the current projects currently in the implementation process.

From the EELC call held on January 9, 2018, there are some current EE projects, to be identified, that have nexuses with Henry Darwin's Lean efforts. So, EELC leaders are assessing how these EE projects can be a "kill 2 birds with one stone" effort. It is not clear as to what EE projects will be considered as an overlap with the Lean Kaizen effort put forth by Mr. Darwin.
